**We've Built Our Business on a Simple Premise:  
When the Melt Has to be Perfect, The Melt Stock  
Has to be Completely Perfect**

**We supply** aircraft and automotive industry, power generation, medical components and many high-tech industries. Our clients expect a refined product and that's what we provide. From our supply chain to our manufacturing techniques, we provide the utmost care and quality in providing the ultimate product in low carbon steel.

**Induction Iron, Inc.** specializes in a very specific type of melt stock: ultra pure low carbon steel. Our clients range from stainless foundries, magnet melters, research and development facilities, to vacuum and air induction super alloy mills. They all trust in the supreme quality of our melting stock.

We have recently expanded into the specialty strip steel business. Chemistries range from 1010 to 1001 ultra high purity carbon steels. We have the capability to roll down to 0.002" thickness and slitting to approximately 0.188" in width.

We make it our mission to meet those requirements with the best quality melting stock and the finest service to match.

**Contaminant-Free. Guaranteed Analysis.**

**Induction Iron, Inc.** meticulously cleans our melting stock to remove all oils, dirt and other contaminants. You can expect guaranteed analysis. All melting stock you receive from **Induction Iron, Inc.** is tested by a certified aircraft laboratory for your protection. Chemical analyses are provided with your shipment.

**Prepared, Packaged and Shipped To Your Specifications.**

Custom orders are the standard at Induction Iron, Inc. Tell us the shape, the size and packaging specifications you require and we will deliver without hesitation. Whether you want sheared plates, punchings or billets, we will meet your needs. We package our melting stock in 55 gallon steel drums sealed with plastic tops or in gaylord boxes.

**We Ship Anywhere in The World – In A Week.**

From our manufacturing facilities in Evansville, IN and Salem, OH, and distribution centers in Los Angeles, CA, Kent, WA, and Waukesha, WI, **Induction Iron, Inc.** provides melting stock to customers around the world. Because we manage many sources of raw materials, we maintain ample inventory of each of our products at all times. This allows us to offer you one week delivery from the receipt of your purchase order.

**Call The Company Where High Standards Are A Standard.**
